## EDUCATION

**UNIVERSITY OF LEEDS**
MSc Engineering Technologies and Business Management
2018-2020 | Leeds, UK

**LEEDS BECKETT UNIVERSITY**
MEng Computer Science
2014-2018 | Leeds, UK

## COURSEWORK

**UNIVERSITY OF LEEDS**
- Data Communications and Network Security
- Managing for Innovation
- Operations and Supply Chain Management
- Effective Decision Making
- Programming-Matlab
- Wireless Comms System Design
- Risk Perception and Comms
- Industry Dissertation

**LEEDS BECKETT UNIVERSITY**
- Engineering Systems Control
- Advanced Software Engineering
- ICT and Environment
- Cloud Computing Development
- Business Intelligence
- Developing Mobile Applications
- Mobile and Cellular systems
- Converged Communication Architectures
- Operating System in Practice
- Software System Development
- Network Applications
- Computer Systems Architecture
- Object Oriented Programming
- Computer Communications

## SKILLS

**PROGRAMMING**
Java • C# • HTML • Javascript • CSS • Cisco Configuration
Shell • Python • C++ • PHP • XML • Assembly • Android
.Net • SQL • Rust • LaTeX

**SOFTWARE**
Eclipse • Visual Studios • Unity • GitHub • Atom • Electron • PyCharm • Matlab • Android Studios • InDesign • WireShark

## PERSONAL PROJECTS

**BUG TRACKER USING JAVASCRIPT** *2019* | Website | Github
Using JavaScript I followed a tutorial to create an online bug tracking system, but it can also be used for Helpdesk services or anything that requires issue tracking

**RANDOM TOWN GENERATOR** *2019* | Website | Github
I created a random generator for a famous TRPG game Dungeons & Dragons. The project helps GM's to quickly come up with names for notable places in town, create an NPC with more personality than you can imagine and generate a minor magical items for your adventurers.

## WORK EXPERIENCE

**UNDP** | ICT Intern
Jun 2017 - Aug 2017
- 2 Month Internship at United Nations designed to learn about work environment and maintaining it.

**ACT** | Freelance Translator
Jul 2016 - Jul 2017
- Act global is eager to devote expertise and energy to the sustainable development and long-term success of their clients. They assist organizations in increasing their value by developing and strengthening their intangible assets.
- The job included freelance translating from Georgian to English and from English to Georgian. Translations cover various areas, specifically research documents on various aspects of social and economic fields.
